1 Get in

Your Judge Advisor gives you a **personal link** or QR code, sometimes on a printed pass.

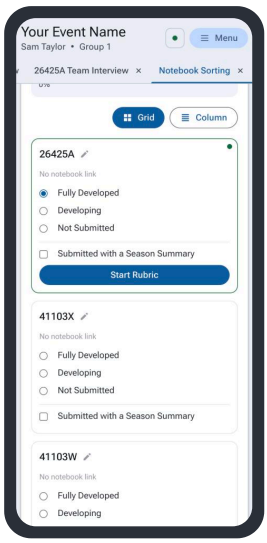

Open it or scan it. You can also go to **robotools.app/app**, paste it in and tap **Join**. There's no password.

2 Overview

Overview is your home page. It's always open, and you start every task from here.

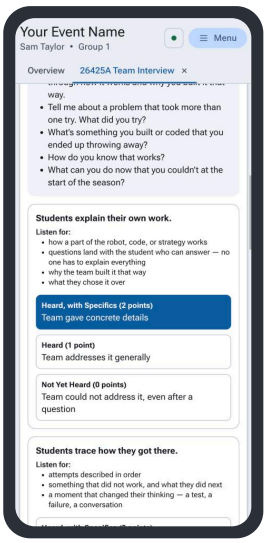

Each task opens in its own tab. Close a tab when you're done, and tap **Overview** to come back.

3 Sort notebooks

In **Notebook Sorting**, mark each notebook **Fully Developed**, **Developing** or **Not Submitted**.

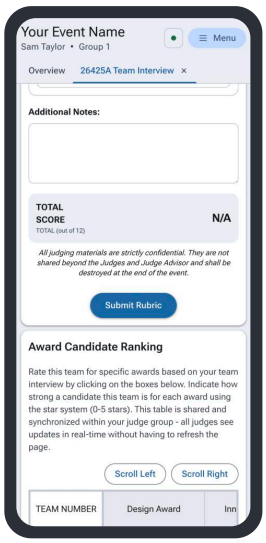

Tap **Start Rubric** to score it from 1 to 4 on each criterion.

4 Interview

In **Team Interview**, choose the team. Ask 2–3 of the sample questions, then score each criterion:

2 · Heard, with Specifics
1 · Heard
0 · Not Yet Heard

5 Submit & rate

Add notes and tap **Submit Rubric**. It tells you if a criterion is still unscored.

Then give the team **0–5 stars** for each award. Your group sees the stars as you set them.

GOOD TO KNOW

- **Listen-fors are examples.** You don't need to hear all of them. Any one counts.
- **You can edit your own rubrics** after submitting. Another judge's rubric is theirs. If you see it differently, submit your own rubric for that team.
- **The app saves and syncs for you.** What you submit shows on every judge's device. If a tab has unsaved changes, the app warns you before it closes.
- **Lost signal or the phone went to sleep?** It reconnects by itself and catches up. You don't need to reload. The dot at the top turns green when you're connected.
- **Your group's teams are shown by default.** Untick the filter to see every team.
- **Left the room by mistake?** Open your link again to get back in.

Your link is your login. Keep it private.

Anyone with your link can enter the room as you. Don't forward it, and lock your device when you step away. If you lose your link or your device, tell the Judge Advisor. They can cancel the old link and give you a new one.
